ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA-HQ-OPP-2012-0589; FRL-9922-82]

Fomesafen; Pesticide Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes a tolerance for residues of fomesafen in or on watermelon. Interregional Research Project Number 4 (IR-4) requested this tolerance under the Federal Food, Drug, and Cosmetic Act (FFDCA). A final rule establishing a tolerance for residues of fomesafen on watermelon, among other commodities, was previously published in the **Federal Register** on November 1, 2013, however, watermelon was not ultimately included in the table in the Code of Federal Regulations (CFR) under section 180.433 paragraph (a). This document corrects that error.

DATES: This regulation is effective [*insert date of publication in the **Federal Register***].

Objections and requests for hearings must be received on or before [*insert date 60 days after date of publication in the **Federal Register***], and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

II. Summary of Petitioned-For Tolerance

In the **Federal Register** of September 28, 2012 (77 FR 59578) (FRL-9364-6), EPA issued a document pursuant to FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide petition (PP 2E8061) by IR-4, IR-4 Project Headquarters, 500 College Road East, Suite 201W, Princeton, NJ 08540. The petition requested that 40 CFR 180.433 be amended by establishing tolerances for residues of the herbicide fomesafen, 5-[2-chloro-4-(trifluoromethyl)phenoxy]-N-(methylsulfonyl)-2-nitrobenzamide, in or on cantaloupe; cucumber; pea, succulent; pumpkin; squash, summer; squash, winter; and watermelon at 0.025 parts per million (ppm); and soybean, vegetable, succulent at 0.05 ppm. The document referenced a summary of the petition prepared by Syngenta Crop Protections, LLC, the registrant, which is available in the docket, <http://www.regulations.gov>.

A final rule establishing tolerances on these commodities, including watermelon at 0.025 ppm, was published in the **Federal Register** on November 1, 2013 (78 FR 65565) (FRL-9401-8); however, watermelon was not ultimately included in the CFR under section 180.433 paragraph (a). This document corrects that error and establishes the tolerance for residues of fomesafen in or on watermelon at 0.025 ppm.

III. Aggregate Risk Assessment and Determination of Safety

EPA is relying upon the findings summarized in the November 1, 2013, final rule (78 FR 65565) (FRL-9401-8) that established tolerances for residues of fomesafen in or on multiple commodities, including watermelon, to establish this tolerance. Details regarding the final rule

as well as its associated supporting risk assessments are available at <http://www.regulations.gov> in docket ID number EPA-HQ-OPP-2012-0589.

Based on the risk assessments used to support the November 1, 2013, **Federal Register** notice, EPA concludes that there is a reasonable certainty that no harm will result to the general population, or to infants and children from aggregate exposure to fomesafen residues.

IV. Conclusion

Therefore, a tolerance is established for residues of the herbicide fomesafen, including its metabolites and degradates, in or on watermelon at 0.025 ppm.

V. Statutory and Executive Order Reviews

This action establishes tolerances under FFDCA section 408(d) in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled “Regulatory Planning and Review” (58 FR 51735, October 4, 1993). Because this action has been exempted from review under Executive Order 12866, this action is not subject to Executive Order 13211, entitled “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), nor does it require any special considerations under Executive Order 12898, entitled “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA)

(5 U.S.C. 601 *et seq.*), do not apply.

This action directly regulates growers, food processors, food handlers, and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, the Agency has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian Tribes. Thus, the Agency has determined that Executive Order 13132, entitled “Federalism” (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000) do not apply to this action. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note).

VI. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).
